

Customer Information

Parking at the Braunschweig Civil Engineering Materials Testing Institute (MPA BS) for Customers, Guests, and Suppliers

Dear customers and suppliers,
dear guests,

We would like to inform you that parking areas throughout the entire Technical University of Braunschweig will be subject to parking management in the future. The introduction of parking management will take place in phases. The parking areas in the immediate vicinity of the MPA BS will be included **starting September 1, 2026**, and will **no longer** be available for **free** use after that date. You can see exactly which parking areas are affected in the following diagram.

The public parking spaces directly on Beethovenstraße are not affected. Likewise, you may continue to use the areas marked in green free of charge until further notice due to a major construction project currently underway. This may change at short notice. Please pay attention to the corresponding signs at the entrances to the detection zone.

D-CAQ-2026-00314 Stand: 06.08.2026

Materialprüfanstalt für das
Bauwesen (MPA BS)

Notified body (0761-CPR) -
Approved as a civil engineering testing,
inspection and certifying body as well as
notified as a civil engineering testing and
certifying body.

What does this mean for you, a visitor or customer of MPA BS??

Of course, you can continue to use the parking areas around the MPA BS premises. Please note the signs at the entrances to the paid parking lots. There you will find a QR code that you can scan with your cell phone camera to purchase an electronic parking ticket for 9 € per day. Alternatively, you can visit the website

<https://tu-braunschweig.campusparken.de> and go to the "Parking for Guests" section. You must purchase the ticket no later than 48 hours after the end of your parking session.

How do I pay for the parking ticket?

The available payment methods via mobile phone or the website are Apple Pay, Google Pay, immediate transfer or credit card.

Do you have an invitation from MPA BS? Then you can park at a discounted rate!!!

If you've been invited by MPA BS to visit, please check in at our reception desk in the main building immediately upon arrival. There, you can register your vehicle for a discounted daily ticket priced at 3.50 €.

Are you a client of MPA BS and need to prepare for your test?

If you're visiting MPA BS to set up a test rig for an inspection you've commissioned with us, or to attend a meeting or site visit related to your order, MPA BS will, of course, cover your parking fees. Please check in at our reception desk in the main building or at the foreman's office in our fire protection department immediately upon arrival. There, you can register your vehicle for a free day pass. Please have the reference number under which your order is listed at MPA BS ready. If you are delivering test materials by truck, other commercial vehicle, or maxi-van, these will be automatically recognized by the system and are generally exempt from parking fees.

What covers suppliers?

Suppliers may use the parking areas for a maximum of 60 minutes without registration. Trucks and commercial vehicles (including maxi-vans) are automatically recognized by the system and are generally exempt from parking fees.

Do you have any further questions?

Please feel free to contact us. We're available by phone or email.

We look forward to your visit,
Your MPA BS Team
