

**Application pursuant to VV TB Lower Saxony,
Annex C, Part C2 / C3 / C4, Ser. No.:**

First issuance of a general building authority test certificate (abP)

Extension of a general building authority test certificate (abP)

same content

abP No.:

with modifications/additions

End of validity period:

for the following construction materials: (Appendix 1, Appendix 2 for serial nos. C 3.1, C 3.2, C 3.4, C 3.14)

for the following building construction: (Appendices 1 and 2)

Description:

Type of material:

Object:

Declaration by the applicant:

The test reports listed in Table 1 (see Appendix) serve as the basis for issuing the abP.
The construction materials listed in Table 2 (see Appendix) are used for producing/constructing the object.

For this construction material / type of construction, no other application for issuance of a general building authority test certificate or a general construction technique permit (aBG) at DiBt has been filed before tot any other notified body. In addition, no other construction supervisory certification exists, for example a general building authority test certificate, nor a general construction technique permit (aBG) approval nor a national technical approval (abZ) for this construction product / type of construction under same name; it is also none such requested.

For the following similar construction materials / building construction, an application for the issuance of an abP has been filed to the notified bodies indicated materials:

None see attachment

We are aware that providing inaccurate information when applying for an abP may result in the withdrawal of the abP.

We acknowledge that the testing body is obligated to publish the abP and is currently fulfilling this obligation by sending a copy of this abP to the Fraunhofer-Informationszentrum Raum und Bau, Nobelstraße 12, 70560 Stuttgart, for further action.

We acknowledge that the abP is intended solely as proof of usability within the Federal Republic of Germany and is issued exclusively in German.

If measures regarding hygiene, health protection, or environmental protection are required for trade, marketing, or use, these shall be initiated by the applicant or made public in the required manner.

Basis for the general building authority test certificate

The test reports/certificates listed in table 1 below form the basis for issuing the requested general building inspection certificate

Table 1: List of test reports

No.	Test report no. <u>(attach in full, no summary)</u>	Testing Laboratory	Date
-----	--	--------------------	------

Declaration of compliance for the construction materials used

The construction materials to be listed in the requested abP that are essential to the requested object have remained identical in terms of their composition (excluding additives that are modified during manufacturing for process control) and their manufacturing process to the construction products listed in the test reports / test certificates according to table 1 (see table 2 below)

Table 2: List of all construction materials used in the abP object

Item no. of the test report according to table 1	Designation of the construction product in the test report (see building materials table) (e.g., mineral wool ".....")	Proof of suitability acc. to test report (e.g. abZ-Nr. Z-..., aBG Nr. ...) or declaration of performance according to hEN or ETA	Designation of construction material current ²⁾	Proof of suitability current (e.g. abZ-Nr. Z-..., aBG Nr. ...) or attach a declaration of performance in accordance with hEN or ETA (complete documentation, no summary).
--	--	--	--	---

²⁾ In principle, all verified performance criteria in accordance with the relevant product standard or ETA must be specified (e.g., gypsum board "manufacturer, name," type DF according to EN 520)
