Entrusted according to Section 8 subsection 1 AkkStelleG in connection with Section 1 subsection 1 AkkStelleGBV
Signatory to the Multilateral Agreements of EA, ILAC and IAF for Mutual Recognition

Accreditation

The Deutsche Akkreditierungsstelle GmbH attests that the testing laboratory

Materialprüfanstalt für das Bauwesen (MPA BS)
Beethovenstraße 52, 38106 Braunschweig
Department 1 – Structures and Construction Materials

is competent under the terms of DIN EN ISO/IEC 17025:2018 to carry out tests in the following fields:

mechanical, physical, hygric, thermic and chemico-physical tests on mineral construction materials such as aggregates, cements, concrete, steel fibre concrete, concrete products, bricks, mortars, plasters, screed, on load bearing walls and non load bearing light partitions, ceiling sheathings, pipe anchors, fixtures and manholes for road surfaces, construction steel and concrete steel, stain-less steel, prestressed steel, concrete steel connections, fibres for concrete, prestressed components, on concrete elements and structures with respect to durability, on concrete steel components and structures in relation to construction structures inspections, on restoration materials, construction structures sealing, on organic and inorganic construction products, on heat insulators and fibre cement products

Testing of construction products in accordance with the Construction Products Regulation (EU) No 305/2011 to defined harmonised conditions for the marketing of construction products (Construction Products Regulation - CPR)

The accreditation certificate shall only apply in connection with the notice of accreditation of 08.02.2021 with the accreditation number D-PL-11267-01. It comprises the cover sheet, the reverse side of the cover sheet and the following annex with a total of 27 pages.

Registration number of the certificate: **D-PL-11267-01-01**

The publication of extracts of the accreditation certificate is subject to the prior written approval by Deutsche Akkreditierungsstelle GmbH (DAkkS). Exempted is the unchanged form of separate disseminations of the cover sheet by the conformity assessment body mentioned overleaf.

No impression shall be made that the accreditation also extends to fields beyond the scope of accreditation attested by DAkkS.

The accreditation was granted pursuant to the Act on the Accreditation Body (AkkStelleG) of 31 July 2009 (Federal Law Gazette I p. 2625) and the Regulation (EC) No 765/2008 of the European Parliament and of the Council of 9 July 2008 setting out the requirements for accreditation and market surveillance relating to the marketing of products (Official Journal of the European Union L 218 of 9 July 2008, p. 30). DAkkS is a signatory to the Multilateral Agreements for Mutual Recognition of the European co-operation for Accreditation (EA), International Accreditation Forum (IAF) and International Laboratory Accreditation Cooperation (ILAC). The signatories to these agreements recognise each other's accreditations.

Tests in the fields:

mechanical, physical, hygric, thermic and chemico-physical tests on mineral construction materials such as aggregates, cements, concrete, steel fibre concrete, concrete products, bricks, mortars, plasters, screed, on load bearing walls and non load bearing light partitions, ceiling sheathings, pipe anchors, fixtures and manholes for road surfaces, construction steel and concrete steel, stain-less steel, prestressed steel, concrete steel connections, fibres for concrete, prestressed components, on concrete elements and structures with respect to durability, on concrete steel components and structures in relation to construction structures inspections, on restoration materials, construction structures sealing, on organic and inorganic construction products, on heat insulators and fibre cement products

Testing of construction products in accordance with the Construction Products Regulation (EU) No 305/2011 to defined harmonised conditions for the marketing of construction products (Construction Products Regulation - CPR)

The testing laboratory is permitted, without being required to inform and obtain prior approval from DAkkS, to use standards or equivalent testing methods listed here with different issue dates. The testing laboratory maintains a current list of all testing methods within the flexible scope of accreditation.

The management system requirements of DIN EN ISO/IEC 17025 are written in the language relevant to the operations of testing laboratories. Laboratories that conform to the requirements of this standard, operate generally in accordance with the principles of DIN EN ISO 9001.

The certificate together with the annex reflects the status as indicated by the date of issue. The current status of any given scope of accreditation may be found respectively in the database of accredited bodies of Deutsche Akkreditierungsstelle GmbH <https://www.dakks.de/en/content/accredited-bodies-dakks>.

¹⁾ System of assessment and verification of consistency of performance

²⁾ Harmonization in preparation (planned system: 3)

The requirements for a testing laboratory are fulfilled according to article 43 of the Construction Products Regulation. Testing methods, which are necessary for determining the product type and cannot be executed by the holder of the certificate, are described in the list of subcontractors.

Without prior approval by the Deutsche Akkreditierungsstelle GmbH (German Accreditation Body), the testing laboratory body is permitted to use new revisions of harmonized technical standards.
